The screenshot shows a website interface with a dark red background. At the top, it says "You are logged in to Your Easy Account as EnterUserNamHere". Below this is a section titled "EARN MONEY WITH VIDEOS!" with a small icon of a video camera. The text says "Now You have the chance to record videos of Your Performers and make money of it! Record long, good quality videos satisfying every demand." To the right, under "Benefits:", there are three bullet points: "Offline Performer Income", "More colourful Performer Profile", and "Uninterrupted earnings".

The main section is titled "UPLOAD AGREEMENT FOR". It features an icon of a document with a green arrow pointing to it. The text explains: "During the registration procedure You have to upload the completed and signed Agreement. Now You need to **download, print and sign** an agreement. The agreement consists of two pages. For Your convenience most of the fields are already filled out. Please sign and scan both pages of the agreement in colour and upload the image files. The Printer will print out a 2 side Document which will look something like this:

The personal Information you have entered already before, will be already filled out in this document So you only have to check if they are OK. If you find errors, do not change it on the paper.

Re-Start the registration process and fill out the fields correct and print the PDF Document again with the correct Data.

If everything is correct, sign the Paper Documents with you name. Now you have to upload these 2 Pages as Picture Files. You need one of this file formats to upload the files:

IMG, JPG, JPEG, CIF, TIFF, PNG or BMP Files.

If you have another format then listed above, the upload will not work. You have to convert it then. Also one file should be below 1 MB. You can use the "Save As" option of your Scanner Program to chose a File Format. JPG is the best way, as this keeps the file size small.

You can also make a Picture with a good Webcam or Digital Photo Camera of each page in color and upload it to us. To upload the Picture Files, use the same Page where you downloaded the PDF document, before you printed it. The Upload dialog is on the right side.

Example:

Put the Picture Files to c:/ of you Computer or know where they are.

Then click on the white box (Browse Button) of the "first page" field to search for the file that you want to upload on your computer. If you have the file on your connected Digital Photo Camera, go to there to find the files.

Choose the first Picture file first then upload it by pressing the Gray Upload Box on the same line. Choose the second Picture file, and then upload it by pressing the Gray Upload Box on the second line.

It should look somehow like this.

The next step is to upload your government issued ID (Passport or Drivers License or similar).

We need it in color and your Photo, Name, Birth date and ID Serial Number must be good readable. You can Scan it or make Photos with a Digital Photo Camera like explained before.

The Screen looks similar to the Upload Screen for the Paper Documents:

If all went OK you should see a Page like this:

Show your face to the webcam and be sure you are recognizable.

Select the method you want to get your money. You can get your earning in every country you might live. For Webcam Models outside USA, Epassorte is a very good choice.

Choose the Payment Method by pressing "Choose Payment Method" button.

Select your desired Payment Method by clicking the right button. I recommend Epassporte if you are outside USA and Check if you live in the USA.

If you work for us it is all free! If you don't have Epassporte and an Epassporte Credit Card, we will set it up for you. You will get your FREE Credit Card to your home address and you can use it to get your money from every bank Automatic Cash Machine (ATM) or you can go shopping with it. You will also get a virtual Visa Card you can use to go shopping in the internet.

After you have chosen the method you will be paid, click on "Submit".

After this select the amount of the minimum payment to you. For Epassprte I recommend 100 US Dollar and for Checks maybe a higher amount if you have to pay charges in your country for changing the check into money.
